

Scientific Program

Friday, January 10

9:35 Assessment of Nanomedicine Design through Micro-Synchrotron Radiation-X-ray Fluorescence
Dr. Cabral Horacio (Tokyo Univ.)

10:25 Break Time

Plenary Lecture

10:40 Structural Similarity and Dissimilarity Between DNA-dendrimer Complex and Nucleosome Array
Dr. Hsin-Lung Chen (National Tsing Hua Univ.)

11:50 Lunch Time

13:00 Structural Analysis of Human Curly Hairs by Synchrotron Microbeam SAXS
Dr. Takashi Ito (Kao Corp.)

13:35 Application of Synchrotron X-ray Diffraction for Development of Transdermal/Topical Formulation
Prof. Yasuko Obata (Hoshi Univ.)

14:25 Break Time

14:40 Development of Drug Delivery System for Poorly Water-soluble Drugs Using Intravital Transporter protein
Prof. Takashi Inui (Osaka Prefecture Univ.)

15:30 ~Symposium Close~
